COMMENTS ON EXAMINER'S REASONS FOR ALLOWANCE

Applicant recognizes that in accordance with M.P.E.P. § 1302.14, the Examiner's reasons for allowance need not set forth all of the details as to why the claims are allowed. In the above-referenced application, Applicant does not concede that the Examiner's stated reasons for allowance are the only reasons for which the claims are allowable. In particular, Applicant does not concede that all of the following features are necessary to distinguish the references of record or to satisfy the requirements of 35 U.S.C. § 112:

including "receiving a request from the user to personalize a search result; responsive to the search query and the request to personalize the search result, generating a personalized search result by searching a personalized search object; responsive to the search query, generating a general search result by searching a general search object; providing the personalized search result and the general search result for display; selecting an advertisement based at least in part upon the personalized search object; and providing the advertisement for display" and as recited in independent claim 1 and similarly recited in independent claim 37.

Furthermore, the claims may be patentable for other reasons. In addition, the dependent claims are allowable on their own merits, and are allowable on the basis of a sub-combination of the recited features of the dependent claims and their respective base claims.
